Examinations

The Pre-Hospital Emergency Care Council is the statutory body with responsibility for standards in pre-hospital education and training. We conduct and manage the NQEMT examination process from developing course content, writing examination questions, training and approving examiner panel membership, providing quality oversight at examinations, marking exam papers and issuing examination results and awarding NQEMT.

The legal basis for PHECC's responsibility for the conduct of examinations is the Establishment Order (Statutory Instrument No 109 of 2000)/Amendment Order (S.I. No 575 of 2004). Article 4 states that the functions of Council shall be to:

- conduct examinations leading to the award of the N.Q.E.M.T. at the level of competence of emergency medical technician, paramedic or advanced paramedic,
- award the N.Q.E.M.T. to such persons as have completed a recognised course in a recognised institution and have passed the relevant examination conducted by the Council pursuant to sub-article (b) of this Article.

If you would like further information on NQEMT examinations select the Candidate Resources tab on the left
